ESGE 34th ANNUAL CONGRESS

19th – 22nd October 2025, ISTANBUL – TÜRKİYE

Dear Colleagues and Friends

We are pleased to welcome you to the **34th Annual Congress** of the European Society for Gynaecological Endoscopy taking place in **Istanbul** from **19 to 22 October 2025**. As a global organisation in gynaecological surgery, the ESGE continues to bring together clinicians, researchers, innovators and manufacturers from all over the world and provide a platform for the exchange of experience, ideas and debate. With our ever-growing membership and attendance at the ESGE Congresses, this Annual Congress promises to be another lively and exciting event.

The Congress is taking place in the most beautiful city of Istanbul, a vibrant location with a wealth of history and culture at the crossroads of three main continents, and bridging over Europe and Asia. It has one of the best travel links from all parts of the world making it an easy destination to reach. We have no doubt that the Congress will be an excellent opportunity to meet colleagues, view or demonstrate new technologies and techniques and make new friends.

Welcome once again and have a fruitful congress.

Yours sincerely,

Innovation in precision: Elevating Laparoscopic Surgery with Next-Generation Technology

This live surgical tutorial session will showcase the latest advancements in minimally invasive gynecology. **A total laparoscopic hysterectomy** will be performed using the **THUNDERBEAT II** - presented live for the first time in Europe - supported by the **VISERA ELITE III imaging platform with NIR fluorescence**, highlighting precision and efficiency in complex dissection and hemostasis. In addition, a **hysteroscopic polypectomy** will be demonstrated using the **Versapoint system**, emphasising safe and effective intrauterine treatment. Together, these procedures illustrate the integration of cutting-edge energy and imaging technologies into daily surgical practice, offering valuable insights for optimising patient outcomes.

Shaping the Future of Patient Care: Advancing Outcomes with Technology, Equipment, and Surgical Expertise

Join the KARL STORZ Live Surgery featuring a broad spectrum of indications in laparoscopy and hysteroscopy transmitted live from Koç University Hospital in Istanbul.

Renowned surgeons will demonstrate how adopting advanced minimally invasive techniques – such as the full range of ambulatory hysteroscopy solutions and the use of ICG in laparoscopic surgery – can significantly enhance patient outcomes and support faster recovery.

Learn how the right choice of equipment plays a key role in enabling precise, safe, and efficient procedures. Discover how specially selected instruments and imaging systems can improve surgical performance and patient well-being – and how the right equipment can help you translate innovation into everyday clinical excellence.

Don't miss the opportunity to interact live with the surgical team in Istanbul!
